### **Together in Faith Phase II**

The Archdiocese of Detroit has launched the second phase of Together in Faith, the ongoing archdiocesan-wide pastoral planning process. A continuation of the Together in Faith planning and implementation process initiated in 2004, the phase two planning is again involving parish, vicariate, and regional leadership in evaluating sacramental activity, finances, and local demographic information of every parish in the Archdiocese. The re-constituted Archdiocesan Pastoral Council (APC) is moderating the reporting process and the Department of Parish Life and Services is the lead archdiocesan resource for data and planning documents.

By the end of January, every parish in southeast Michigan received information on the Together in Faith process as well as supporting documents. Each parish has appointed four to five representatives to serve on the Together in Faith planning groups.
